Presentation

NYC Economic Development Corporation with the architectural team made an updated presentation on the streetscaping of West 125th Street in CB9. There were two changes on the schematics to widen sidewalks near Fairway and possibly place the APT toilet on 125th Street instead of the park.

The Public Design Commission is requiring one final resolution approval before contracts can be approved and go out to bid. The Committee approved the same language used in April for the 2nd resolution on the schematics with the following updates.

Our committee ended early in order to view the testing of the lights on 12th Avenue and Broadway.

Meeting adjourned at 7:40 p.m.
