REPORTS

- **Update re: Teachers College Community School – School Leadership Team – Joe**
 - Joe explained to community members how CB9 came to have a seat on the School Leadership Team of the Teachers College Community School.
 - The principal of the school initially submitted the school’s Comprehensive Educational Plan (CEP) to District 5 without consulting with the School Leadership Team., but agreed to incorporate edits and respond to questions from SLT members. Joe submitted edits over the holiday break. The edits were ultimately reviewed by the SLT and incorporated into the second version of the CEP submitted to the District.
 - This first CEP is geared toward meeting the needs of TCCS’s inaugural kindergarten class and includes supports for students struggling in reading and math, along with a range of afterschool programs, including martial arts, healthy eating, and music.
 - In response to requests from Joe and other SLT members, the principal has compiled a list of the services provided by Teachers College to TCCS. The principal was unable to provide the dollar value of those services, but this information may be obtained from Nancy Streim of Teachers College, who serves as the second community-organization representative on the SLT. Joe had reiterated at the December SLT meeting that the services TC is providing are in conjunction with the W. Harlem Community Benefits Agreement.
 - Committee members asked whether a full arts program will be available during the regular school day in addition to the afterschool offerings. Should meet the “DOE Blueprint” for classes in the arts.
 - TCCS is expecting word from the DOE as to whether TCCS will have a pre-k program this fall.
 - There will be a TCCS kindergarten application info session for parents at the George Bruce Library on Feb. 15. Joe asked YEL Committee members to attend and be available to greet parents and answer any questions related to CB9 or to the Committee.
 - Committee Questions:
 - When will the school be officially named?
 - What is the plan to expand to include grades 6-8, given that the W. Harlem Community Benefits Agreement calls for pre-k to grade 8?
 - TCCS is in conversation with the Arch Diocese regarding space issues and how to accommodate the middle-school grades.
 - What assurances do we have (or can we secure) that the DOE will not attempt to co-locate another school with TCCS at the St. Joseph’s site?

- CB9 still has not received the school application that Teachers College submitted to the DOE for TCCS. YEL Committee should also request a copy of TCCS's application to the DOE/NY State for the pre-k program. YEL will request the report from the community engagement sessions that CB9 co-hosted with Teachers College in 2010.
- Guest attendee Karim Muhammed recommended looking into a potential site on Wadsworth Ave. in order to accommodate TCCS's middle-school expansion.
