RESIDENT CLIMATE ACTION GRANTS

A grant program to fund NYCHA resident-led projects in community climate action and sustainability

DREAM IT, DO IT!

Are you the type of NYCHA resident who doesn't just see problems, but dreams of solutions?

Are you interested in community-building through resident-led programming that brings much-needed change to the space that surrounds you?

NYCHA Sustainability, in partnership with the Public Housing Community Fund and The New York Climate Exchange, is looking for residents who are ready to bring their problem-solving skills to the next level by leading the way in addressing climate and sustainability issues that matter most to you and your neighbors.

WHAT IS THE RESIDENT CLIMATE ACTION GRANT PROGRAM?

Resident Climate Action Grants is a newly launched grant program to invest in NYCHA resident-led projects in community climate action and sustainability. Eligible NYCHA residents 18 or older can apply for **up to \$5,000** to implement a community project addressing community climate action and/or sustainability.
