FREE! High School Application Workshop

If you are an 8th grader applying to high school, you may need to write a personal essay. If you are struggling with an application essay, we're here to help! During these one and a half hour workshops, we'll help students with the whole writing process: choosing their topic, brainstorming, outlining, drafting, revising, and editing their personal essays.

These workshops are possible thanks to the support of NYC Council Member Carmen De La Rosa.
